**CDH, HEALTHWORKS!, TEAM UP
FOR COLORECTAL CANCER AWARENESS MONTH**

TUPELO, Miss.—March is National Colorectal Cancer Awareness Month, and the Center for Digestive Health and HealthWorks! are teaming up to present “The Scoop on Poop,” an education program for kids age 6-12 and their parents.

This free program will be held at 10:30 a.m. Saturday, March 20, at HealthWorks!, 219 S. Industrial Road. Sign-in will begin at 10 a.m.

This family-oriented awareness program will begin in the HealthWorks! interactive classroom. A High Flying Kid Motivator (educator) will lead a fun-filled program to teach children of all ages about the life cycle of food, how the body uses food, and how the body eliminates the waste. The children will then join volunteers from the Center for Digestive Health on the Funtastic Floor for some play time while the parents stay in the classroom for a brief presentation by gastroenterologists from the Center for Digestive Health.

Pre-registration is recommended. Call 377-KIDS (5437) for more information or to register.
