June 21-22	NMMC-Iuka 1777 Curtis Drive
June 23-25	NMMC-Pontotoc 176 South Main Street
June 28-29	Baldwyn Medical Clinic 745 South 4th Street
June 30-July 2	NMMC-Hamilton 1256 Military Street South

A screening mammogram is used to detect breast cancer in women with no current breast problems. The test can detect cancer before it can be found by

physician examination or other methods of diagnosis. Screening mammograms are available through self-referral.

The cost of a screening mammogram is \$138. The results of the mammograms are read by NMMC radiologists, physicians who specialize in interpreting X-ray, ultrasound and other types of imaging studies.

Appointments for all mammography services are scheduled in advance. To schedule a screening mammogram, call (662) 377-7982 or 1-800-THE DESK (1-800-843-3375).
