HEALTH CARE
FOUNDATION
of North Mississippi

COVID-19 Project

The HCF HOPE Physicians were proud to contribute to a new project by North Mississippi Medical Clinics.

“We found that many patients who tested positive in a clinic setting didn’t have the items they needed at home to properly care for themselves, so they were having to go to the pharmacy or send someone out,” said Molly Weldon, North Mississippi Medical Clinics Chief Operating Officer. “This kit will make sure they have what they need without risking exposing others or having to figure out how to get what they need when they aren’t feeling well.”

The kit includes:

- Patient Information sheet (includes “what to do/not do” if you’re positive)
- Toothbrush
- Hand sanitizer
- Tissue
- Thermometer
- Magnet
- Oximeter
- Two batteries
- Face mask

We are thankful to be able to support projects like this to help people in our community in times of need.

Meeting the health needs of our region’s patients and their families is complex and requires partnership and collaboration. As physicians, you have dedicated your career to that mission. Giving to the HOPE Fund is an investment that will make a meaningful difference.

Thank you to all of our 2021 HOPE Physicians

NMMC physicians have a long history of providing strong leadership hospitals and communities while also being extremely charitable with their resources to assist important causes ranging from education and civic projects to our churches and missions.

As key supporters of NMMC health and wellness programs, our medical staff members regularly contribute to the Health Care Foundation of North Mississippi. These gifts sustain a wide variety of essential patient- and family-centered care programs such as patient assistance; medical education and scholarships; and innovative community health and wellness projects.

Through the HOPE Fund, physicians can partner to collectively do even more to **Help Our Patients Everyday**. A portion of all HOPE funds raised will support existing areas of greatest health needs while the remaining funds will be awarded annually to additional health related projects selected by a committee of fellow physician donors.

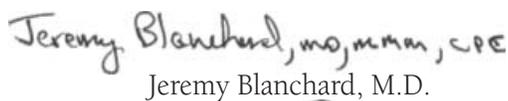

We encourage you to take a moment to review this brochure and make an ongoing commitment of \$1,000 or more annually to the NMMC Physicians' HOPE Fund by completing the commitment form and returning it in the enclosed envelope. Individual physicians or groups can participate in the HOPE Fund with a pledge, cash gift or by requesting an invoice. Employed NMMC physicians may also use the form to contribute through payroll deduction.

Please consider joining us and many other NMMC physician colleagues and make your pledge today!

Sincerely,

Mont Berry, M.D.

“

Mary and I support the Health Care Foundation because we know our investment has a direct impact on real people who live in our community. As physicians in Tupelo for 40 years, we saw patients every day who need more than can be provided in the exam room or clinic. That's where HCF comes in. Join us in supporting this worthy cause and making a true difference for our patients.

– Samuel Pace, M.D.

”

The HOPE Fund is a physician-driven annual giving program that directly benefits your patients in ways that are important to you and your colleagues. As a physician, you have first-hand insight into what projects would make the most significant impact on your patients.

HOPE Fund Details

- Distributed annually with an advisory team of physicians directing how the funds are used.
- Gifts are tax deductible.
- HOPE Donors of \$1,000 or more will be recognized at hospital recognition centers, events and online.
- All of your gifts go to their intended purpose, never administrative or overhead costs.
- When physicians combine their charitable investment to HCF, it adds up to create meaningful impact for our patients.

Project E.L.E.C.T

Dr. Vernon Rayford and Project E.L.E.C.T. recently spearheaded the Northeast Mississippi Coalition against COVID-19. This is a group of community organizations and individuals with a mission to improve COVID-19 vaccine access and reduce hesitancy. The Coalition is holding mobile vaccination sites in rural areas.

We were proud to support this wonderful project by donating funds to purchase an AED to keep on-site at the vaccination clinics.

Thank you to Dr. Rayford, Project E.L.E.C.T., and everyone else involved in this effort.

Donate Now

An annual contribution of \$1,000 or more will make a meaningful, sustainable impact on the health of the people of our region. To give, you may:

- Complete and detach this portion of the brochure and mail it to: HCF; 830 S. Gloster St., Tupelo, MS 38801
- Visit www.nmhsfoundation.org/physicians-hope-fund or scan this code with your phone: The website also offers the option to divide your gift into monthly contributions.
- NMMC-employed physicians may use this card to make payroll deduction gifts.

I am pleased to support the NMMC Physicians' HOPE Fund with an annual commitment of (check one):

- \$1,000
- \$2,000
- Other (*Amount of group gift*) \$ _____
- Check enclosed; send annual pledge reminders
- Invoice me; send annual pledge reminders
- Payroll deduction (*NMMC Employed Physicians*)*
 - \$38.46 per pay period
 - \$76.92 per pay period
